Ko Ben Claxton toku ingoa

Taupo-nui-a-Tia College is a big waka. This year, we have had over 1200 students on the roll, the number of teaching staff reached 88, and we have a support staff crew of 44 – not to mention all of our parents and caregivers. That's a lot of stakeholders! When you're dealing with that number of people, there's a lot that could go wrong, but there's also a lot that could go right. For our waka to function well and be paddling in the right direction, we need everybody playing their part – our students, our teachers, our support staff, and our school community. I could not lead this amazing place without the support of all of you!

There are a number of people I need to acknowledge within our organisation before I go any further. So, to start with, I would like to thank our senior leadership team, comprised of our deputy principals, Richard Murphy, Brenda Ronke, Stephen Fowler, and Maria Heaslip, ably supported by our business manager, Alice Wichman, and our executive assistant, Tammy Gower, all who work tirelessly to try and create the best outcomes they can for our ākonga.

Thank you to our pastoral care team, our deans, our Bay Trust staff, our nurses, our counsellor, and the other external agencies who support us – thank you for caring for our students like they are your own children.

To our Heads of Faculty, Teachers in charge, and our Kaiako, thank you for all the seen and unseen mahi that goes on every day, and night, and in the weekends, and in the holidays, to plan and deliver the best possible programmes for our ākonga. When I am able, I consider it a privilege to be able to move around your classrooms and witness you changing lives and helping to create better humans for Taupō and our wider community – it is a privilege and it is a big responsibility!

To our support staff - the admin team, the property staff, the canteen staff, our learning assistants, and our various technicians. Thank you for the integral parts you play to make our place the best it possibly can be.

I'm extremely proud of all of you. I make a conscious effort every day while I'm driving to work – no joke – to say out loud how grateful I am for the privilege and responsibility of leading this kura, and to be able to live in this amazing town. Some of you may find it a little weird, but I think there is something to be said for saying out loud or writing down the things you are grateful for every day.

I would like to acknowledge our amazing group of Head students for 2025, Tawhai Donaldson, Vanya Heaslip, Scarlett Rutherford, and Mia Way-Ferguson. They are an incredible bunch of young people who have completely embodied our values of whakaponu, wero, and manaakitanga. I think some parents are fearful of the teenage years, but if my own children turn out as awesome as you lot, then I will be a happy man. You can be proud of your leadership and the legacy you will leave – I know your families are

extremely proud of you as well. I know that you have been ably supported by a wonderful group of other Year 13 students. Just like I need a big support crew to help with my job, I know that you have relied on a number of Year 13s in various roles to help you lead the student body this year. I would also like to take a moment to acknowledge our Year 13 Dean, Vivien Forrest, for her leadership of your cohort over the past five years. Vivien, your awahi and support of this year group over the past five years is also reflected in this special group of young people.

It is also important that we acknowledge a long-serving taonga of our place who is retiring at the end of this year. Whaea Steph Richards has been with us since 2003, and has been an absolute rock in our kura over the past 20+ years. Whaea Steph, we honour you tonight for your outstanding service to our school and our community – you have changed many students lives over your time with us and you will leave some big shoes to fill. Please join with me in acknowledging Whaea Steph.

Our board and senior leadership team has recently been working on developing our new strategic plan for 2026-2028 – thank you, students, staff, and our community for the feedback we have been able to gather via our various community consultation opportunities. We are in an interesting position of trying to balance ministry priorities with what our community wants and needs. Our three overarching goals will be: 1) Achieve academic excellence and consistency in teaching and learning, 2) Ensure an inclusive culture of wellbeing, respect, and high expectations, and 3) Pathways, Partnerships, and Real-World Readiness. We look to bringing those goals to fruition over the next three years. This year, we have had an increased school-wide focus on literacy and numeracy, especially in the junior school, which included a \$60,000 investment in Writer's Toolbox and Education Perfect. What we noticed last year, with the introduction of new NCEA level 1 achievement standards at year 11, was the cognitive leap from Year 9 and Year 10 to academic rigour required at Year 11. We hope to reap the benefits of our efforts in the junior school with positive results in the years to come. Our initial data indicates that the hard work has been paying off, however, the work is never finished, hence the strategic goals we have in place for 2026-2028 which I mentioned earlier.

There is quite a bit of further change on the horizon in terms of a curriculum refresh, beginning with our Year 9s next year, new assessment tools, and senior qualification changes from 2028. It is a lot, but our key message to you and anyone you may speak to is, we've got this! I am confident our team can deliver what's being asked of us from central government, and what's being asked of us from our community. As I said at the beginning, we are in a position of immense privilege and responsibility in terms of the influence we can have over young people, and you can be sure we don't take that lightly. That's why our job is so important, and in my opinion, one of the key pillars of society. From a property point of view, we have successfully completed several property projects in 2025. At the beginning of the year our library roofing project was completed, our H7 and H8 renovations were completed. We have also finally just received a new lift for N block, meaning all areas of the school are now wheelchair accessible. We still have roofing projects to complete on our canteen and English blocks, however, we have been told these will be completed in 2026. Most recently, and possibly the property project most desired by our students, our student car park has been resurfaced. The state of the student car park has been an ongoing frustration for many years, so it is fantastic it has been brought up to spec, for hopefully years to come. Apologies to our Year 13s who won't get to enjoy it – perhaps this gives you an excuse to come back next year, park there, and come say Kia Ora.

I also want to take a moment to honour our students who have achieved their own individual success through sport, music, the arts, and cultural activities. We are a school which is focused on the holistic development of our students and it's important to know that if you aren't getting an academic award tonight, we still see you. Only a select few will ever be recognised as being the best in something, but if you know you have brought your best – and demonstrated Wero – courage and bravery – then you can be proud of that, and I am proud of that.

Kia kaha, kia maia, kia manawanui.  
Be strong, be steadfast, and always,  
always be willing. No reira, tēnā  
koutou, tēnā koutou, tēnā tātou  
katoa.

## THE BOARD OF TRUSTEES REPORT

MICHELLE BARNETT - Presiding Member

As I presented my end of year board report at last year's prizegiving the school was preparing for a visit from the Education Review Office. The visit went well with the recommendations from this visit being published in February this year. Recommendations from the report included a coherent tracking system to fully understand student achievement and progress, review of the current literacy and numeracy plan and to implement a schoolwide approach and review of attendance. Common themes found in secondary schools across the country. As a board we committed surplus funds from 2024 to be used how the school saw fit for the benefit of increasing the numeracy and literacy results especially for those students working towards the CAA exams required to pass level 1 NCEA.

Some of this was used to purchase specific software that could be used across subjects to enhance the numeracy and literacy learning. The board has seen the work that the school has done on working on these recommendations and also the focus that has been put into numeracy and literacy. The regular reporting we receive has shown how students are tracking and progressing. At our board meeting last week we were shown the data on the increase in pass rates for these CAA exams compared to the same time last year. Thank you to all of the teachers who have worked so hard to help the students progress to achieve these results. Also happening this time last year was the re-roofing of the library which has been completed and the library reopened this year. The next roofs to be fixed are the canteen and E block. Upgrades to the Nelson block to include a lift are almost complete. Each year a new student representative is elected to the board and since before I started on the board a common request has been brought to the table by them. That has been to repair the student car park. Over the years the pot holes have grown and the newly elected student representative for this next year captured this so well in her video showing the massive puddle that students have to pretty much 4 wheel drive through to get into the car park after it has been raining. We've listened and in conjunction with the district council this car park is currently being repaired and will be ready for the students in the new school year. Thanks to all of the staff who took the time throughout the year to compile reports for the board and also to Alice, the school business manager for her very detailed finance reports we receive each meeting. Earlier in the year all heads of faculty produced reports for the board to read and then attended one of our meetings so we could discuss them in detail. It is time for Board to set the next 3 year strategic plan. The school has been gathering student, staff and community voice over various methods and this has been collated together to bring a draft plan together that is currently being refined and will be adopted at our next board meeting. Some common themes came through from all areas of consultation. The strategic goals will be focused on 1) Achieving academic excellence and consistency in teaching and learning, 2) ensuring an inclusive culture of wellbeing, respect, and high expectations, and 3) strong pathways, partnerships, and real-world readiness. Recently elections were held for the school board. We operate a split system where half of the board comes up for election every 18 months to keep some consistency. Ending their 3 year terms at this latest election were Parent representatives Mark Gibson, Vanessa Donald, Lorraine Kerr and staff representative Martyn Howie. Vanessa stood down earlier in the year when she became employed at the school and Lorraine and Martyn chose not to stand for re-election.

We were pleased to welcome back Mark and also welcome our new board members Catriona Eagles and Ian Chamberlain. Our new staff representative for the next 3 years is Kris Sainsbury and as mentioned earlier we get a new student rep each year and this year we welcome Emily Barnett. Thank you to Lorraine, Vanessa, Martyn and student rep Daniel for your contribution to the board we have valued your input and robust discussions over the years. To the students, good luck over the next few weeks to those of you sitting external exams and to those who are finishing their journey at school, good luck with your next adventure. Tonight we are here to celebrate the success of the students, but I would like to take a moment to acknowledge the contribution one special lady has made to

our school board and others in this town. Lorraine Kerr started her service to school boards back in 1989 and in 1998 she joined the Taupo nui a Tia school board. At one stage Lorraine was a board member on 3 school boards all at once. Tauhara Primary, Taupo Intermediate as well as ours. For the past 20 years that she has been on our board she was also the president on New School Board Association or NZSTA as it was previously known. During her time as president she worked with different governments and many education ministers. We feel very fortunate to have had Lorraine on our board while she also held this role as we know she often put in a word for our school and advocated down in Wellington on our behalf. Thank you Lorraine for all you have done for our school and the other schools in Taupo.

# STUDENT REP'S REPORT

DANIEL FLETCHER

I shall keep this short - because truth be told I am designing this page and am all too aware I've run out of room. In brief, I am eternally grateful to my peers to have been elected student rep, and believe I have spent my time diligently, in the service of my student comrades, promoting student

wellbeing, projecting the student voice, and striving for a greater equality within our ranks.

I believe my input on the board, especially in areas regarding curriculum changes beginning last year for NCEA level 1, and other such vocation about education, have been a vital tool for the board and the school as a whole, and have been an important step in improving student life. I should like to thank my fellow board members for allowing me this wonderful opportunity, and wish Emily Barnett, my replacement in 2026, the very best of luck in the position. Ngā mihi.
